Supervisors Adopt New County Building Code

Ladner Wants Code To Protect People

Jerry Ladner told members of the Board of Supervisors on Monday that he "represents the people of Hancock County," however his request for \$30,000 in which to prepare a building code which he claimed would be designed to "take the code out of politics and protect the poor people" was denied.

"You have already announced that you will run for Board of Supervisor," observed Supervisor Peck Mangum, "therefore you couldn't possibly write a code and take it out of politics." Other reasons for turning down Ladner's request were his objections to the adoption of a code which he was unfamiliar. Ladner admitted he was not aware of the provisions contained in the code and accused the code-writing committee of excluding him from the meetings during which the code was being formulated.

"You were invited through the columns of the paper," Ladner said. "We were in dire need of a code and all facets of the contracting business were invited -- plumbers, electricians, carpenters, contractors -- and general public." Ladner countered: "I wouldn't know a 15 amp. fuse from a 30 amp's."

Ladner was later invited to meet with the group on Monday night for the purpose of working out some phraseology concerning the Board of Appeals regulations and other technical aspects of the code which was accepted unanimously by Board Members when it was presented.

Immediate adoption of the building code had been urged by citizens who filed the trailer in which the hearing was held to capacity. "Without an acceptable code," insurance representative E. J. Marengo said, "I can assure you rates will go up." Ladner through implication accused Marengo of pushing code adoption through self-interest and in order to obtain additional business for his insurance company. Later he retracted the statement and made an apology at the insistence of Mrs. Margaret Shadoin. Russell Elliott, president of the board, made repeated attempts to recognize all persons who wished to be heard. Their statements were consistently interrupted by Ladner with the assurance "I just want to say this one thing."

This is the fourth time," commented Elliott. "You have said one more thing" and he asked Ladner to allow each speaker to complete his thought before interrupting with a rebuttal. Ladner said he would like to give the people an opportunity to "debate" and said "we should act like human beings."

Supporting Ladner's views were Elvin Walters and one Paul Newman, who said he was a preacher from Piquette, Walters said, "I dare you to put it to a vote. Are you afraid?" Walters also said: "Ask your attorney. That code is in violation of the United States Constitution. He was vehement in his denunciation of General Electric and the handling of Federal Funds. The minister added: "Ladner's got a point. Give us 30 days to work out something."

Ladner's petition to the Board of Supervisors to rescind the original adopted code has come under fire of criticism lately and reportedly many who signed the document say they did not know what they were signing. An examination of the 38 pages does reveal that not all pages carried the wording of the petition.

Anyone from St. Clare's Parish interested in attending is asked to contact the Rectory, 467-9275.

CHOIR PRACTICE

St. Clare's choir will have practice at 7:30 tonight at the church.

New members are welcome.

MANAGERS RETURN

Mr. and Mrs. Clifton Roberts have returned to Bay St. Louis and are again managing Horns on Highway 90.

When questioned about water sources, Broadway said: "The bottom of the strata offers a source of good artesian water." When asked if septic tanks would function properly and be permitted, Wayne Allison said: "I know this land well. Septic tanks properly constructed would pose no pollution problems."

(Cont. on Page 9-A.)

Planning Commission Seeks To Stop Shoreline Lot Sales

Seeking to prevent the sale of lots in Shoreline Park until subdivision regulations are completed with fully members of the Hancock County Planning Commission presented a resolution to the Board of Supervisors on Monday. "We will be brief," said Roy Baxter, president of the Planning Commission as he and vice chairman, James Rester, passed a copy of the resolution to each member of the board. "We know the board has a great deal of urgent business scheduled for today's hearing so we ask that you read this resolution when time permits."

Planning Commission members feel strongly there should be no discrimination in enforcement of subdivision regulations and ask that the Board rescind its December 23 Order accepting for filing Shoreline Park Unit 6, addition 4, and Unit 7, addition 8 and instruct the Clerk not to record this plat as a subdivision in Hancock County until specifications are met.

Represented by attorney Gerald Gatz, Shoreline Park developers sought during December of 1970 to file a plat on "existing" units and received permission of the board to do so on December 23. Earlier board members had referred the matter to the Planning Commission for recommendations, however, Attorney Gatz declined an invitation to meet with commission members with the explanation the property was a portion of the "existing plat" and therefore not to be treated as a "new" development. Ruble Griffin Attorney for the Hancock County Planning Commission said the property involved is about five miles away from the original Shoreline Park and "going right into the river." Sanitary Inspector Wayne Allison, in attendance at the Planning Commission meeting, said the resolution and was in agreement that enforcement of subdivision regulations should be uniform. "Allison said: 'We have insisted on compliance from Diamondhead and from Jourdan River Shores and we should be just as concerned for Shoreline Park.' Allison, voted as an ex-officio member by the planning commission, is frequently called upon to voice an opinion, has worked untiringly toward prevention of pollution in streams. Subdivision regulations call for central and potable water and for a central sewerage disposal system. 'Septic tanks simply do not work in low-lying lands,' Allison said, and added they are a source of water pollution through seepage.

Board members are expected to take action on the resolution at their next scheduled meeting. Quoting from the resolution's second paragraph: "The Planning Commission does not find and determine that neither of the above subdivisions (Units of Shoreline Park) in any manner comply with the subdivision regulations (Cont. on Page 9-A.)"

New Subdivision Meets Preliminary Approval

Orphan Creek Ranches, a new subdivision to be developed by the owners of Jourdan River Shores, Inc., met the preliminary approval of the Hancock County Planning Commission on Friday. Buddy Broadway, civil engineer, and Homer Colson, a representative of the developers, met with the commission members and secondary inspector, Wayne Allison, to present drawings of the plat and to answer pertinent questions.

So named because Orphan Creek and its tributary runs through the center of the property, Orphan Creek Ranches are located approximately five miles North of Kiln and West of Highway 608. Approximately 128 lots will be offered for sale when developers have met requirements of providing improved streets and roads. A second restriction specifies lots to be sold for single family units. Minimum lots sizes run from three acres or an average 175 ft. by 745 ft. Some lots run up to five and a half acres. Highest elevation on the plat is 112 feet. All of the acreage is said to be of excellent elevation with the exception of banks, riding and hiking trails are included and have such name appeal as Ponderosa Trail and Crazy Horse Drive. The development is about "18 to 20 minutes from Bay St. Louis" and Highway 608 leads North to Poplarville or South to I-10 and Bay St. Louis.

When questioned about the price-range on the lots, Colson said: "We haven't gotten that far along yet but we have a list of prospective buyers and believe when we put them on the market they'll be sold out within sixty days." It is reported there is a growing demand for rural property with lots large enough for gardens, flower growing, or simply fresh air and privacy.

When questioned about water sources, Broadway said: "The bottom of the strata offers a source of good artesian water." When asked if septic tanks would function properly and be permitted, Wayne Allison said: "I know this land well. Septic tanks properly constructed would pose no pollution problems."

Jaycee Annual Awards Presented

Nicholas M. Haas, Bay St. Louis attorney, is the recipient of the 1970 Distinguished Service Award presented annually by the Bay St. Louis Jaycees. Sister Mary Ruth, principal of St. Clare's School in Waveland, has been named Outstanding Young Educator and Boss of the Year Award was given to Lamar Smith, part-owner and general manager of Lamar-Lane Chevrolet.

Haas is a past president of the Bay St. Louis Jaycees and is presently serving on the Board of Directors for that organization. He was named one of the Outstanding Civic Leaders of America in 1967 and one of the 1970 Outstanding Young Men in America. Haas is also a member of the American, Mississippi and Hancock Bar Associations.

Sister Ruth was honored for her outstanding contribution in the field of education. Immediately after Hurricane Camille, she volunteered her services to the American Red Cross and was responsible for obtaining trailers and tents for the operation of St. Clare's

School. Because of her careful planning and excellent coordination, St. Clare's opened on schedule in 1969 despite hurricane damage. During this time, Sister Ruth continued her duties as teacher and principal. Lamar Smith, Boss of the Year, is on the Board of Directors for the Hancock County Chamber of Commerce and is a member of the First Baptist Church in Bay St. Louis. He also served on the Board of Directors for the Bay St. Louis Jaycees.

The three awards were presented by Jaycee President Robert Boudin at the banquet held Monday night.

Trial Date Set

The trial for Charles Boom, indicted for manslaughter in the December 24 shooting of Boom's stepson Robert Herron, has been set for July 26. Boom entered a plea of not guilty when arraigned Tuesday before Judge Leslie H. Grant, Circuit Judge. Bail was set at \$3,000.

Bay Upturn Head To Be Reassigned

Robert Reighlter, acting as Administrator of the Interim Assistance Program, Certified Area Program, under a General Electric Contract with the City of Bay St. Louis recently suffered what was described as "a recurrence of a pre-existing illness," according to a communication from Lucien M. Gex, Jr., who is manager of the Mississippi Development Programs.

In the text of his letter which was addressed to Mayor Warren Carver and City Commissioners Andre Arceneaux and William Frisbie the manager Gex said: "It is the opinion of General Electric management that Mr. Reighlter has done an outstanding job in setting up and administering the program. This opinion is shared by many officials of the Housing and Urban Development Administration. Therefore, it was with extreme regret we learned only yesterday (January 11) that Bob sustained a recurrence of a pre-existing illness. As a result, Bob's doctor has ordered him to bed for an indefinite period. We feel his assignment would be in Bob's best interest."

Reighlter reportedly recovered sufficiently to enable him to attend the Jaycee's banquet given on Monday night. A candidate nominated as "Boss of the Year," Reighlter applauded enthusiastically when the award went to Lamar Smith.

In Gex's communication he said: "We feel that we have a competent replacement for Bob and I would like to meet with you at your early convenience to discuss our recommended candidates with you, along with the execution of an extension of our contract for an additional (Cont. on Page 9-A.)"

Former Nursing Director At H.C.H. Indicted

Sam Williamson, former Nursing Director at Hancock General Hospital, has been indicted on two charges of forgery by the Hancock County Grand Jury. The indictments allege that Williamson forged a doctor's name to two narcotics prescriptions and submitted them to two local drug stores.

He was arrested on January 15, at his trailer by the Hancock County Sheriff's Department but has been released on a \$2,000 bond.

Williamson was named Nursing Director in September 1970, to replace Mrs. Nolan Ladner who had resigned to accept another position. Previous to his appointment, he was a nursing supervisor at Memorial Hospital in Gulfport.

According to an official source, Williamson has been dismissed from his position at the hospital.

INSPECTIONS In the interest of making sure inspection costs are kept to a minimum, the Supervisors agree to accept inspections from F.H.A., V.A., or other qualified inspectors. There will be inspections made on each phase of construction and the property-owner is thereby assured he is getting not only good construction but electricity that is installed so that there is not a potential fire-hazard from faulty wiring, and plumblings installed correctly so there can be no pollution seepage or drainage problems. This code eliminated the objectionable duplicity of inspection and also brought the control to a local level.

NO POLITICS

The law makes mandatory the Board of Supervisors as the final authority on code acceptance and execution. Supervisors, however, in an effort to protect the people without dominating them have delegated

Before voting in favor of the code a copy of the document was presented to each supervisor and the board was recessed for two hours in order that supervisors might carefully read the content and make sure the wording and the provisions were for the best protection for those living in the district which he represented. During the afternoon session President of the Board, Russell Elliott said: "Gentlemen you have read the code individually, and now we can read and discuss it collectively." Dolph Kellar said: "This is good. I think we should make sure what we are voting on and iron out any weak parts."

Apparently the supervisors wanted to make sure the code contained the kind of regulations that would make the property insurable. Unless property is insurable lending agencies refuse to accept applications. Mortgage companies for their own protection refuse to lend money on a house or building that has not been constructed under acceptable building code regulations.

Using as a guide line the rules under which the Federal Government, or banks, or other lending agencies will lend money for construction, the committee charged with the writing of the code followed pretty closely the Southern Standard Building Code as amended. The code, as written, complies with the regulations of the Southern Standard Plumbing Code, the Southern Standard Gas Code, and the National Electrical Code. These codes are concerned with not only the construction of a new building, but also with enlargements of existing dwellings, or repairs, or demolition.

THE LAW makes mandatory the Board of Supervisors as the final authority on code acceptance and execution. Supervisors, however, in an effort to protect the people without dominating them have delegated

STANDING WITH JAYCEE President Robert Boudin are the three recipients of awards presented annually by the Bay St. Louis Jaycees. From left to right: Nicholas M. Haas, attorney; Sister Mary Ruth, principal of St. Clare's School; and Lamar Smith, Boss of the Year. (Photo by Ed Pappas)

THE WALLS CAME TUMBLING DOWN — fanned by a howling north wind, flames destroyed the last building remaining on the beach side of South Beach Blvd. late Monday night. (Echo Staff Photo by Eddie Engelhorn)

Financial Advisor Answers Criticism By Commissioner

City of Bay St. Louis Commissioner William Frisbie recently the text of a letter addressed to him and signed by John L. Genin, Chief Financial Advisor for Operation Upturn in Bay St. Louis. Frisbie said: "In regard to your criticism of the Certified Area Program, I do not believe that we evaluated all the facts before making this criticism."

After releasing figures Genin said: "Your earnest consideration and re-evaluation of your opinion and criticism of the IAP CAP Program as administered by Operation Upturn would be appreciated."

The data given in Genin's letter appears as follows: Of the four hundred fifty-five (455) applications received by Operation Upturn, 342 have been processed and have resulted in grants, loans or a combination of both — for a total dollar figure of \$99,291.95. There have been cancellations of seventy-five (75) applications for various reasons. Most of these cancellations have resulted because the applicant may have been eligible for a grant of \$500.00. It would have taken more than the maximum allowed for a grant (\$350.00) to bring the house up to the standards set by the Southern Building Code; and, these applicants were not willing to take a loan to go with the grant. In the total dollar figure, \$36,527.77 has been contributed by the applicants. Most of this money came to the applicants through SBA loans that were recommended by this office. For example, an applicant eligible for a grant of \$350.00 needs \$500 to bring his house up to standards set by the Southern Building Code. Instead of giving the applicant a grant of \$350 and a loan of \$250, we recommend the applicant to SBA

to get a loan of \$2500, with \$1800 forgiveness feature. If this applicant is approved by SBA and gets our grant and SBA's loan, he can have \$6000 worth of repairs done to his home with an actual cost to himself of \$700.00.

Therefore, of the total 459 applications received by Operation Upturn, 204 have been completed. Forty-four and four tenths percent (44.4%) of all applications received by Operation Upturn have been completed.

There are forty-five (45) Urban Renewal type programs in the Southern United States. Bay St. Louis ranks sixth (6) in the average number of loans and grants processed per month, up of the latest report dated 30 November 1970.

Further, although there is an amount of \$2,210,000.00 allocated for loans in Bay St. Louis, of the 459 applications received by Operation Upturn to date — only 98 were applications for loans on file at Operation Upturn were processed immediately for an average of \$7,000.00 per loan, only \$686,000.00 of the allocated \$2,210,000.00 would be used.

PIER PILINGS

An invitation is being published by Commissioner Andre Arceneaux to anyone owning beach front property who wishes to have pier post piling removed from the waters or beach in front of their homes to get in touch with him to have them removed free of charge. Arceneaux said he has a man who will remove the pilings for the salvage material and at no cost to the home owner.

Midnight Burglary

Approximately \$200 in cash and merchandise was stolen last night from W. A. McDonald's home located on Easterbrook in Bay St. Louis.

According to John McDonald, the burglary occurred during the night when the coffee shop was closed for business. He said the burglar entered the building through a back wall and used the back door when

the theft was discovered and employees returned to work the next day.

The Hancock County Sheriff's Department and Bay St. Louis Police investigated the burglary.

WELFARE SOCIAL

The welfare social for the Bay St. Louis will be held on January 22 at 7:30 p.m. at the Bay School cafeteria.

Teacher Trainees

Visit Saint Rose

Four college trainees representing colleges in Mississippi, Wisconsin, and Illinois have joined St. Rose de Lima Faculty for a special project designed by their colleges and referred to as the "January Observation and Field Experience Program."

These college students spend their day observing classes, tutoring individual needs, helping with playground supervision, and preparing individualized workshop materials - in short, getting a taste of the school world from the other side of the desk.

Miss Manuella Curry, a Junior at Viterbo College in La Crosse, Wis. says she enjoys most the individualized reading program with the students' enthusiastic response to the variety of teacher-made workshop material, and the unique leveled math program. Miss Sheila Smith and Lirja Labat, freshmen at Tougaloo College in Tougaloo, Miss., and Postulant Mary Kreutz from Holy Ghost Convent in Techny, Ill., are other members of the observe and experience team.

The first three girls are former students of Saint Rose de Lima School. Miss Labat commented, "This experience has given me a better insight of what elementary teaching is all about. It takes a lot of hard work and a lot of patience, but the help it gives to others makes it all worthwhile."

Miss Smith agreed saying, "This project is one of the greatest things I've ever experienced."

Some of the wells in Hancock County are on public property and authorities could have the flow stopped or lessened without any problem and conserve a great deal of water. This would fall under the jurisdiction of the Board of Supervisors.

Private wells, however, require the permission of the owner. The State Water Commission in Jackson published a pamphlet and in recent articles has pointed out the necessity for conservation of water. Some legislation is said to be in the making which will eventually make mandatory the conservation of water supplies. It was said.

Sutter said, "There is less population and less industry in Hancock County therefore less water is in actual use in the county." Sutter said many gardeners like to use shallow wells for watering plants, how-

ever, anyone living within the City Limits would be required to get approval from the City Commissioners. A permit to drill a well is stipulated.

MR. CARL TARTAVOULLE AND SON-IN-LAW MR. W.B. BRADY ACCEPT DELIVERY OF HIS NEW CHEVY PICKUP TRUCK FOR BUSINESS FROM LAMAR-LANE CHEVROLET IN BAY ST. LOUIS, SALESMAN FOR THE TRANSACTION WAS J.C. KOENEN.

Mr. Carl Tartavouille of Bay St. Louis needed a new pickup truck for his building business in this area. Since he had been reading and hearing about all the good deals folks receive from Lamar-Lane Chevrolet on Chevy cars and trucks he visited them. At Lamar-Lane Mr. Tartavouille talked to salesman J.C. Koenen who showed him their large selection of new pickup trucks. Mr. Tartavouille selected a pickup truck that he thought would be just what he needed and J.C. Koenen worked up a Lamar-Lane price on it for him that saved him \$196.00. Mr. Tartavouille is very happy with his Lamar-Lane pickup truck and is very happy that he shopped here at home for it helps our community. If you're going to buy a new car or truck, visit Lamar-Lane Chevrolet and talk to salesman J.C. Koenen, he could save you many dollars. The lots at Lamar-Lane Chevrolet are full of 1971 Chevy cars and trucks.

Building Code.... Upturn Head.....

(Cont. from Page 1-A.)

the bulk of the responsibility to the people through the Hancock County Chamber of Commerce. Men without political affiliation, all residents of Hancock County, and all engaged in various businesses will serve on the committees as set up by the Chamber of Commerce. Raymond Rayburn who is executive director of the Chamber said: "Open invitations were extended to contractors, sub-contractors, carpenters, plumbers, electricians, in fact all men engaged in any phase of construction and to all people who as citizens are interested in the Hancock County Chamber of Commerce. These men met and gave invaluable assistance through the democratic process of spooling out. This way the code accepted Monday is really a code not only written FOR the people BY the people."

After the code had been accepted by the Supervisors, Monday night meeting was called for the purpose of getting a final opinion from the public and from those in the building trade. The meeting was held in the Hancock County Construction Council at the helm. AMENDMENT PROVISIONS The code, as adopted, includes a provision to make amendments. This provision in effect relieves the persons charged with enforcement of the code of having to comply with any provision found to be objectionable. Amendment provisions makes the code flexible enough to correct any unforeseen inequity.

EXEMPTIONS In outlying areas where buildings such as sheds, barns, or other out-buildings are needed, there is a provision that exempts the property-owner from complying with code restrictions. These exemptions are in property that is a safe-distance away from other properties and would not constitute a potential fire or wind-storm damage to other property.

BOARD OF APPEALS Felt to be a weak link in the former building code (GEC) was the functioning of the Board of Appeals. A stronger and more functional board is being organized. Also in the organizational stages are a number of committees whose various duties will be co-ordinated.

PERMITS The code, as accepted, requires that all buildings, structures, or melting minor repairs, provided such repairs are not a violation of any provision of the code.

KEEPS COSTS DOWN Fees for permits have been stipulated in the code and no one will be charged where the fees does not exceed \$100. All fees are minimum and have been written into the body of the code.

year, should you so desire." Hubert Hughes, the Administrator of the IAP/CAP Program in Waveland was appointed to act in interim capacity for Bay St. Louis until such time as a replacement is named for Reigiller. A City Council meeting, open to the public, has been scheduled for Thursday morning at 10:00 a.m. for the purpose of discussing a possible replacement for Reigiller, it was said.

Orphan Creek....

(Cont. from Page 1-A.)

Roy Barker, president of the planning commission and speaking for the group expressed thanks to the developers for their cooperation. By seeking advance approval it is possible to iron out any difficulties while sub-divisions are still in the planning stages and thereby prevent delays and costly mistakes that could occur should developers fail to comply with sub-division regulations, it was said.

Rubie Griffith, attorney for the commission, said restrictions for sub-divisions varied somewhat depending on land elevation and size of lots involved. The developers said it was their intent to present final plans for approval in the immediate future. The planning commission functions in an advisory capacity and the Board of Supervisors, final authority, acts on the recommendation of the commissioners.

Beside the president members of the commission include Wayne Ducomb, treasurer; Dave Johnston, secretary; James Rester, vice chairman.

of Hancock County, Mississippi in that streets have not been constructed and utilities, including a sewer system, have not been placed as provided by the subdivision regulations. The resolution further stated "the naming of said plat as an exception does not in any manner exempt a plat or lots from the subdivision regulations; otherwise the subdivision regulations would be a complete nullity in that regulations could be avoided by the use of names."

Attorney Gen. stated lots in Shoreline Park are sold on the time-payment plan and no construction would take place on any lots until final payment had been made.

Fire Chief Says Water Pressure Ample to Fight Fire.

Bay St. Louis Fire Chief, Edgar Ladner, in an interview on Tuesday said there was ample water pressure and plenty of available fire plugs to fight the blaze that destroyed the building owned by Joe, H. Benvenutti which was destroyed in a Monday night conflagration in Bay St. Louis. Ladner said his unit answered a call from the Sheriff's office then the Waveland fire department joined in the effort to control the blaze. Pass Christian, Ladner said, volunteered to send its fire department, but according to Ladner the building was past saving and there was no use in bringing in other fire-fighting equipment.

Ladner said an old fire plug located in front of Delph's Department store had been replaced by a new one. The Waveland Fire Department, unaware of the change, made an attempt to connect to this plug. Ladner denied the rumor that the plug was untested and unreported and said they just had not gotten around to removing the "dummy plug". Reportedly other "dummy plugs" are unremoved and still on location in Bay St. Louis. Octave Delph, downtown merchant said "These plugs should be immediately removed. They cause confusion."

Chief Ladner said the fire was well underway when they were notified, and he felt that it had been caused by someone

PICTURED ABOVE are Brother Pierre St. Pierre, S.C., president of St. Stanislaus, and Brother Aquila Gaudier, S.C., director of Alumni Relations at St. Stanislaus. They make final preparations for the St. Stanislaus Alumni Reunion to take place Saturday, January 23, in New Orleans at the Fountainsbleau Motor Hotel. This reunion is open to all alumni of SSC and reservations may be made in advance through the Alumni Office at St. Stanislaus. (Echo Staff Photo by Eddie Engelhorst)

St. Stanislaus Reunion Set

The St. Stanislaus Alumni Association will hold its annual alumni reunion on January 23, 1971. This "alumni get-together" will take place in New Orleans at the Carnival Hotel of the Fountainsbleau Motor Hotel from 8 P.M. to 11 P.M. Many of the Brothers of the Sacred Heart who have taught at St. Stanislaus in the past will be in attendance.

This year the Alumni Association will honor five classes in particular — namely, those classes celebrating a ten year

period since their graduation (classes of '51, '41, '31 and '61) and the class celebrating their twenty-fifth year of graduation (class of 1946). Certificates recognizing the time since their graduation will be given to those alumni of the "honored classes" who are in attendance.

This alumni reunion is open to all alumni of St. Stanislaus and their wives and dates. Reservations may be made in advance through the Alumni Office at St. Stanislaus.

Sanitary Fill Land Offered

The urgently needed sanitary Land Fill for Hancock County could soon become a reality. In a report made Monday to the Board of Supervisors it was said a 140 acre tract of land located in the buffer zone of Mississippi Test Facility has been offered through the Real Estate Division of NASA by attorney Wally Brown. Only stipulations in the lease

Fire Destroys Beach Building

Late Monday night, a fire completely destroyed the only remaining building on the beach side of South Beach Blvd. The structure, owned by Joseph Benvenutti, was spared by Hurricane Camille in 1969.

According to Bay St. Louis fire chief Edgar Ladner, the fire apparently was started by a spark from burning trash on the beach. "The wind was very strong Monday night and we believe sparks were carried up to the building," Ladner stated. Firemen received the call at 10:30 p.m. and aided by the Waveland Volunteer Fire Department, had the fire under control by 11:30 p.m.

"The Pass Christian Fire Department also offered to come, but by that time we had controlled the fire and there was no hope for saving the building. I do want to thank both departments (Waveland and Pass Christian) for their assistance," Ladner said.

who set trash heap on fire, or by someone who could have dropped a lighted cigarette in the building which was used as a storage warehouse by the E.R.I. Benvenutti, owner of the building, was not immediately contacted however it was said there was no insurance coverage on the structure.

"At the time we got the call nothing could have saved that building," Ladner said and added "Our job was to control the fire and keep it from crossing over the street and igniting such properties as Delph's and Manufactory stores. Ladner said the fire was brought under control between 10:30 and 11:30 p.m. but the fire fighting units remained on the scene as a precautionary measure.

Jourdan RiverShores Reports Progress

More lots have been sold in the Jourdan RiverShores Sub-division in the last 13 weeks than were sold previously during a whole year. Homer Colson told members of the Hancock County Planning Commission last Friday night. Colson, a representative of the developers and attributed the success of the sale to compliance with sub-division regulations.

Initially the Jourdan RiverShores, Inc. ran into a legal snarl when it was found they were advertising lots for sale prior to improving streets and supplying a central water system and a sewerage disposal plant. Escrow money was then put in a New Orleans bank representing a guarantee to the land purchaser that subdivision regulations as outlined in the approved plat would be complied with fully.

Buddy Broadway, civil engineer, in charge of the subdivision development told commissioners the "Club House" has been completed and has already been reserved for the first social function, a wedding reception to be held on January 23.

In his progress report given to the commissioners and to sanitary inspector, Wayne Alington, the engineer said a well had been drilled by the Sizer Well Works that had a pressure of between 20 to 25 pounds. The well, Broadway said, meets the requirements of the Mississippi State Board of Health. Depth of the well is 848 feet and it has an 8 inch piping.

All material is on order for the sewerage disposal plant, Broadway said, and added that much of the supplies have been delivered to location. Colson said compliance with these regulations had been a decided advantage and lot sales were

ATHLETE OF THE YEAR

Many laurels have been heaped on Doc Rhodes, 22 year old son of Judge and Mrs. Nellus Rhodes of Bay St. Louis, who has won the title of Athlete of the Year in weight lifting, which comes with the award on Jan. 30 at a banquet in the Fontainebleau at New Orleans.

A few months ago, Dick Lightsey, Daily Herald Sports Editor wrote "Mississippi's Gulf Coast has long been producing top-flight athletes in various sports, but we know of no one in any sport who has equalled the achievements of Joseph Rhodes, 22-year-old native of Bay St. Louis."

DOC RHODES

"Rhodes, son of Judge and Mrs. Nellus Rhodes and now a student at Gautier, has won two national titles in his chosen sport — and he won't be satisfied until he wins a third." Well, Doc won his third national title — and broke a record in it. At the recent AAU Powerlifting Championships at New Orleans, Doc, who weighs only 165 pounds, claimed the third national title by breaking the Senior National Powerlifting record of 1,425 pounds with a total lift of 1,455 pounds — 505 pounds on the bench press, 505 pounds on the squat lift and a dead lift of 445 pounds. And that's a lot of pounds for a 165-pound young man."

ONLY THE BEGINNING

And Doc's friend and tutor, J.E. Locasano, head football

THE PAUL PITRE FAMILY OF LONG BEACH, MISS., WANTS A FINE SECOND CAR FROM LAMAR-LANE SALES-RENTAL HERB BARON IN BAY ST. LOUIS.

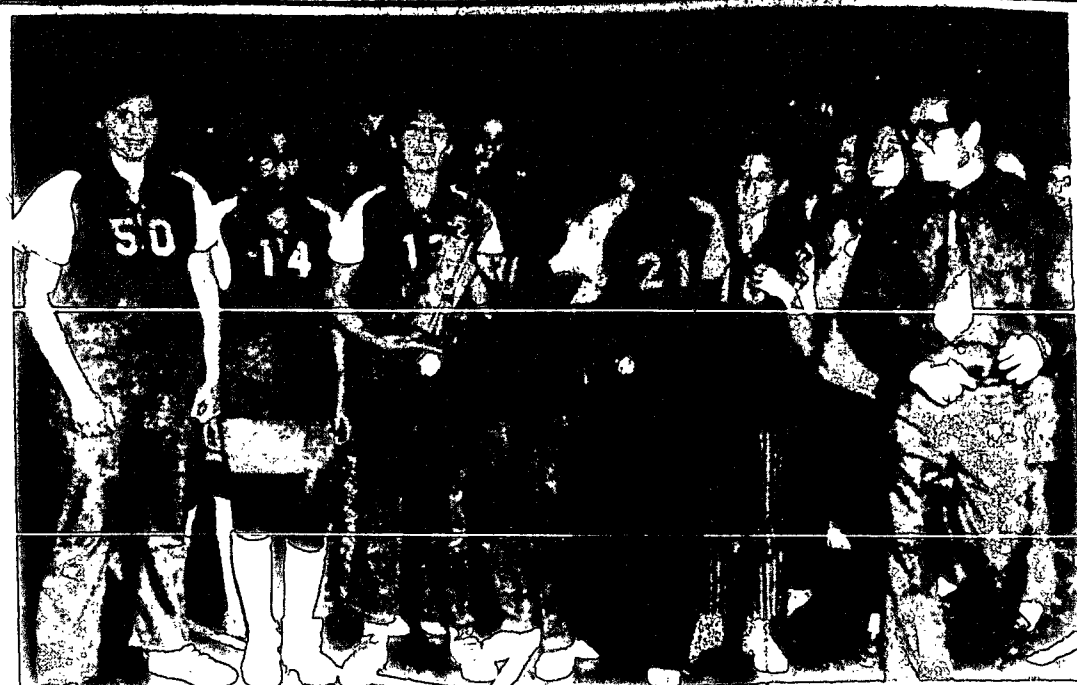

Paul Pitre of Long Beach, Miss., looked in vain for a good second car at a reasonable price, he looked everywhere but no coop. Mrs. Pitre suggested that they visit Herb Baron at Lamar-Lane Chevrolet in Bay St. Louis. He had read and heard about the good deals he was making in Bay St. Louis. The Pitre family are thoroughly satisfied with their exceptionally fine Nova at a much better price than they could have gotten elsewhere. Many folks who have read or have heard about the good deals offered by Lamar-Lane Chevrolet visit them because they have read or have heard about the good deals offered by Lamar-Lane Chevrolet on new Chevy cars and trucks and also O.K. cars. If you're thinking about buying a new car or truck, visit Lamar-Lane Chevrolet and talk to salesman Herb Baron, he could save you many dollars. 1971 Chevy cars and trucks are rolling in at Lamar-Lane Chevrolet. You could have your next car in stock. LAMAR-LANE CHEVROLET, INC. MR. PAUL PITRE (A Gerry Lane Enterprise) Adv. Long Beach, Miss.

HAPPY HAPPY Bay Junior High Tigers receive trophy of girls' division of Kila Annunciation basketball tournament after edging Pass Christian Junior High 30-29 in finals Saturday night. Prima Luke, No. 12, game leading scorer, accepted trophy. Others are Vanessa Labat, No. 14; Melody Reid 50; Perry Whavero, 31; Monica Price, 21; Stephanie Favre, 15; Joy Thomas, 10; Becky Summers, 20; Connie Paine, 11; Myra Haynes, 22. At right is coach Dennis Barcelona. Orange Grove defeated Lizaona 47-29 to win the boys' division championship. (Photo by Bay High Photo Club)

Pass Edges Tigers In Two

The Pass Christian Pirates won a double-header from Bay High Friday night in the Tigerdome but they had to do it the hard way — both the Tigers and Tigerettes had solid leads throughout but the Pass rooters never would give up and sparked their teams to last-minute winning rallies.

The Pirates won the boys game 68-66 in overtime while the Pass sextette took the opener 42-40.

Having lost a one point squeaker to Bay High in the Hancock North Central Tournament earlier this month, Pass Christian came off the floor to win

this one. The Pirates were trailing 28-19 at halftime and 49-35 going into the final frame but managed to even the score at 61-61 as the final buzzer sounded and then turned the tables by out-rebounding and stealing Bay High's passers. They capitalized on accurate shooting while the Tigers missed several times.

Quarter scores:
Pass 6 13 16 26 7 - 68
BH 12 16 21 12 5 - 66
Leading scorers: Bay High, Fred Lymuel 24, Willie Thomas 23, Gary Blaise 14. Pass Christian, Mike Smith 21, Lonnie Necaise 14, Bruce Amoin 13, Wayne Ladner 10.

The girls' game was another sizzler and only the buzzer decided the winner. With 1:16 left in the game and the score 38-38, Susan Ladner was fouled and given two free throws when Tiger coach Willie Bradley called time out to cool down the girls. After the rest Ladner came back to sink the game and it was 40-38 Tigarets. Then with 1:11 Sherrie Necaise

coach at Bay High thinks this is only the beginning. According to J.E., most weight lifters do not reach their full potential until their late 20s or early 30s.

Earlier last year Doc set a new total lift record of 1,410 pounds in the middleweight division of the AAU Junior National Powerlifting Championship at Denver, Colo.

In 1969, representing the University of Southern Mississippi in the National Collegiate Athletic Association's (NCAA) weightlifting championships at Lansing, Mich., he became a national champion for the first time, setting a record that still stands.

Rhodes is a graduate of St. Stanislaus, Pearl River Junior College and the University of Southern Mississippi. He is an expeditor in the Procurement Department of Ingalls West Division of Litton Systems, Inc., at Pascagoula and lives at Gautier with Mrs. Rhodes, the former Karen Dean who starred in basketball at Bay High.

Doc was a football star at St. Stanislaus and took up weightlifting at the urging of Locasano who now accompanies him to most events and acts as his coach.

At his desk, fellow-workers know Rhodes as a quiet, unassuming fellow. But during a meet his competitors know him as a real tiger.

THE OWNERS AND MANAGEMENT OF LAMAR-LANE CHEVROLET WANT TO CONGRATULATE

J.C. KOENNEN

ON HIS CONTINUOUS SALES ABILITY FOR THE WHOLE YEAR OF 1970.

BEING TOP SALESMAN EACH MONTH WAS A JOB THAT AS FAR AS WE KNOW, HAS NEVER BEEN DONE AT ANOTHER DEALERSHIP.

WE WANT TO THANK THE PEOPLE OF THIS AREA FOR THEIR BUYING FROM J.C. KOENNEN, WHICH MADE THIS POSSIBLE.

WE ALSO WANT TO THANK THE PEOPLE FOR THEIR BUYING FROM OUR OTHER FINE SALESMEN, AS IT HELPED MAKE 1970 A BANNER YEAR IN SALES.

Krewe Plans Annual Ball

It is Carnival time in Wave-land! Whether you are "in it" or to "view it" you will be glad it is Mardi Gras once again. When the curtain rises on the annual pageantry of the KREWE OF NERIDS Ball the night of Saturday, Jan. 30, the GOLD, PURPLE AND GREEN (symbolizing power, justice and faith) will again reign supreme. The 100 ladies membership of this Carnival organization were forced to cancel their Ball last year due to the tremendous losses to individual members and to the Krewe's Don and completed floats destroyed during Hurricane Camille. They re-built the Don and all 6 Krewe's of Norida floats, only to bond again to Nature on the day of the Parade -- rescheduled it a week later and at last their 4th Annual Mardi Gras Parade rolled to the delight of all.

The ladies have put a bit of extra preparation into this year's Ball. The colors, lights, costumes, decorations and participants are brighter and more elaborate than before. Speculation as to the identity of Queen Doris V and King Nerius V has Wave-land buzzing. By tradition their entrance at the annual Ball will finally answer the excited "Who is it?" The honorifics are identified after the Ball but the names of the women are

never revealed -- this is a Women's Krewe. Of course, being a small town, the friends and relatives begin to see tall-tale signs and soon Queen Doris V, Her Maids and many of the Maskers are guessed.

Although Parade preparations have been going on for weeks, the morning after the Ball these really move into high gear. Many groups, individuals and civic organizations have already signed up to participate and the Bands are responding in great form as always when the Annual KREWE OF NERIDS Parade roll along the streets of Wave-land, Parade Day -- February 14, 1971 promises to be a very special one for all. Doubloons, throws and favors are all packed and ready. Come on -- come all -- join in the gaiety with Wave-land's KREWE OF NERIDS.

MEETING CHANGED

The Candy Striper's meeting has been moved up a week to January 24th. It will be held in the Conference Room of Hancock General Hospital, and members are reminded if they wish to work during the following month, they should be in attendance at the meeting. Several matters of importance will be discussed.

MR. AND MRS. LARRY SANTINELLI

Miss Crouch Weds Larry Santinelli

Our Lady of the Gulf Catholic Church was the setting for the wedding at 4 o'clock in the afternoon December 19, of Miss Virginia Crouch, daughter of Mr. and Mrs. Burl Crouch of Stuttgart, Arkansas, and Larry Santinelli, son of Mr. and Mrs. Edward J. Santinelli of Bay St. Louis.

Rev. John Kelly performed the double ring ceremony before an altar decorated with arrangements of white roses and holly flanked by branched candelabra.

Mrs. John McKenna, organist, played the traditional wedding marches and appropriate selections during the ceremony. Given in marriage by her brother-in-law, Ralph D. Ramsey, of Bay St. Louis, the bride wore a gown of bridal satin with Empire waistline and A-line silhouette. Bands of Alencon lace trimmed the center front, long sleeves and high neckline. The detachable chapel train carried out the scrolls of Alencon lace around the edge. Her head piece of satin and seed pearls was attached to an elbow length veil of illusion and she carried a cascade of white roses and holly.

Miss Katherine Oliver of Bay St. Louis was maid of honor and E. J. Santinelli served his brother as best man.

The maid of honor and flower girl, Miss Lisa Moritz, niece of the bride, wore identical satin dresses fashioned with beige tops, brown skirts and tangerine belts. The maid carried a colonial bouquet of white roses and holly and the flower girl carried a basket of carnations and holly. Darrell Hardie served as ring bearer.

Following the ceremony a reception was held in the Parish Hall.

The mother of the groom chose for the occasion a navy blue suit and matching accessories. Mrs. Ralph Ramsey, sister of the bride who assisted in receiving, wore an A-line yellow and blue dress with matching accessories.

The bride's table, overlaid with a white satin cloth edged in lace, was centered with a three-tiered cake trimmed with white spun sugar roses, pale pink flowers and green leaves. The top tier held the traditional bride and groom. Silver candelabra holding white tapers were on either side.

Mrs. Jack Ulrich of Pass Christian cut and served the cake.

The couple will make their home in Bay St. Louis.

Collier Serving On Training Ship

Navy Petty Officer Third Class Thaddeus L. Collier, Jr., son of Mr. and Mrs. Thaddeus L. Collier Sr., of 316 St. John St., Bay St. Louis, Miss., has reported aboard the Navy's only training aircraft carrier, the USS Lexington at the Naval Air Station, Pensacola, Fla.

Give United

Shower Given

Mrs. Anthony Pitilo hosted a shower January 8 at her home honoring Mrs. Barry Jones.

A blue and white color scheme was used in the decorations and cake trimmed with buttercream centered the refreshment table.

The honoree was presented a corsage of white carnations interspersed with blue ribbon.

Bay High Chilled By Harrison

Bay High's roundballers traveled to Harrison Central Monday night and got blasted back, along with howling north winds, by two of the best teams in this area.

Coch James Pair's quintet took a 72-44 licting and coach Willie Bradley's sextet opened the double-header with a 58-34 loss.

Quarter scores, boys:

BH 11 14 12 7 - 44

HC 23 12 14 23 - 72

Girls:

BH 9 5 13 7 - 34

HC 13 22 13 10 - 58

High scorers, Bay High boys: Willie Thomas 16, Fred Lyman 10, Gary Blake 6; girls: Stann Lotner 13, Harrison Central, boys: Paul Lee 20, Jackie Hartfield and Freddie Taylor 12 each; Julian Murray 10; girls: Terrie Robinson 14, Linda Blackwell 10.

PRIVATE PROPERTY clearance is progressing at a satisfactory pace in Bay St. Louis as a property owners co-operate with the Cleanup and Beautification Program to improve the city. This site at 125 Ulman Ave. was badly overgrown with high weeds and underbrush and is one of the larger properties to have been cleared through the Cleanup Program. Debris and weeds were cleared out by contractor Forrest Neal and flowering bushes and decorative shrubs left intact.

Church Holdings**Weekly Services**

Weekly evangelistic services are being held Tuesday at 7:30 o'clock at Cedar Point Baptist Church building on Felicita St. in Bay St. Louis, with the Rev. L. Walker, pastor of the Mill Creek Baptist Church of Piquette in charge.

Old Spanish Trail Baptist Church, Highway 90, West, Bay St. Louis, is co-sponsoring a mission with the Mill Creek Baptist Church. The mission endeavor has the endorsement of all the churches of the Hattiesburg Baptist Association.

The Rev. Walker announces that services will be held every Tuesday evening for the next several weeks, after which regular Sunday services will begin at the earliest possible date. The public is cordially invited to attend these services.

and Mike Hardee, Holly Krauss, Priscilla Snow, Scott, Shane and Stacey Anderson, Eddy Stone,

Clairissa Thornburg, Brenda Nettles, Gayleen, Larry and Jack Boone, Bart Dea-Dea, Sandy, Cherry and Sherry Joehume of New Orleans, Mrs. Joehume also attended.

Refreshments of cake, punch, ice cream and candy cups were served.

Those winning prizes were: Priscilla Snow, Shane and Stacey Anderson, and Mark Hardee.

Mistaken in my last column that it was Stephanie who celebrated her birthday on Jan. 1st. It was Tammy Davis instead. Happy birthday, Tammy!

Get well wishes are extended to Todd Stone who has been under the weather lately.

Belated birthday wishes go to Mr. E.E. Breland who celebrated his birthday last week.

While enroute to Oklahoma City, Okla., to visit with her ailing father, Jewel Thornburg and children stopped in Sherman, Texas to visit with the Jack Shrock family, who sends best wishes to all their friends in this area. G. E. flew up to join Jewel and the children for the trip home.

Happy birthday wishes to Mrs. Ruth Davis who celebrated on January 20th.

Birthday wishes are also sent out to Emma Rayborn who celebrated her birthday on Monday, January 18th.

Tiny Lori Nell Watkins celebrated her birthday on January 18th. Happy birthday, Lori. Lori is the daughter of Mr. and Mrs. Gerald Watkins of Sildell.

The children enjoyed refreshments of ice cream, birthday cake, punch and favors.

On Saturday, January 16th a party was given for Sherry Boone in honor of her 7th birthday, by her parents, Mr. and Mrs. Lawrence Boone of Jacksonville Drive, Oak Harbor. Children attending were: Mark

MR. TERRY PROFFER OF PASS CHRISTIAN, MISS., ACCEPTS DELIVERY OF HIS NEW CHEVY PICKUP TRUCK FROM LAMAR-LANE CHEVROLET SALES MAN J.C. KOENEN IN BAY ST. LOUIS, MISS.

Mr. Terry Proffer of Pass Christian, Miss., wanted to buy a new pickup truck. He figured that the best thing to do was shop around and get prices before he bought, as he wanted to save himself as much money as possible. At Lamar-Lane Chevrolet he talked to salesman J.C. Koennn who gave him a Lamar-Lane price on a new Chevy pickup. After checking things over Mr. Proffer found out that the price he was given by J.C. Koennn on a new Chevy pickup truck saved him \$235.00, so he drove his new Lamar-Lane Chevy pickup truck home. Folks from all around are finding out about the good prices offered by Lamar-Lane Chevrolet on new Chevy cars and trucks. If you're going to buy a new car or truck, visit Lamar-Lane Chevrolet and talk to salesman J.C. Koennn. he could save you many dollars. Lamar-Lane Chevrolet has many 1971 Chevy cars and trucks for their customers to choose from in styles and colors. LAMAR-LANE CHEVROLET, INC. MR. TERRY PROFFER (A Gerry Lane Enterprise) Adv. Pass Christian, Miss.
